**Crease:** There will be a crease, a semi-circle in front of the goal. The defense may not position a player in the crease similar to a goal keeper. The offense may not position a player to receive the ball in the crease. **This includes goal kicks and corner kicks.** The referee shall direct the player, during live play to exit the crease. If the violations persist, then the referee may caution the offending coach for unsporting behavior. If the ball goes into the crease first, then the players may play ball.
